# BEER & CIDER

## Cask - Real Ale

We have two hand-pull cask real ales on offer. Ask your server for today's choices, which often include the likes of Timothy Taylors, Theaksons Best, Yorkshire Blonde from Ossett Brewery, and locally brewed seasonal choices. We may be labelled a wine bar – but you'll struggle to get a better kept pint in York.

## On Draught

### **Theakson - Old Peculier**

Old Peculier is possibly one of the country's most well-known and loved ales. The name pays tribute to the unique ecclesiastical status of Masham, the site of the Brewery in North Yorkshire, as a 'Court of the Peculier' and is also a reference to the strong characteristic of the beer! For many years it was affectionately referred to as Yorkshire's 'Lunatic's Broth'. Old Peculier is a beautiful, yet very simple beer, brewed using a very generous blend of finest pale, crystal, and roasted barley with two bitter hops. Combined with the majestic and noble Fuggle's hop, they produce a beer of awesome full-bodied flavour with subtle cherry and rich fruit overtones.

### **Beavertown - Neck Oil**

Neck oil is our down-to-earth beer. The light and zingy taste of Neck Oil Session IPA is the perfect place to start your craft beer journey. We think Beavertown created a perfect balance of hop flavours to deliver an extra special taste.

### **Beavertown - Gamma Ray**

The rich and refreshing taste is perfect for those wanting to really explore this world of flavour. This is Beavertown's original craft beer icon, their American dream, inspired by those great pale ales from California's pacific coast.

### **Brew York - Lupu Lion**

A juicy golden pale ale heavily hopped for roaring citrus notes, with a paw-some resinous pine finish- with zero gluten! Brewed locally here in York by Brew York, its another of our favourites here at Plonkers.

### **Orchard Thieves**

### **Estrella Galicia**

## Old Fashioned

The old fashioned is a cocktail made by muddling sugar with bitters and water, adding whiskey, and garnishing with an orange slice or zest and a cocktail cherry. It is traditionally served with ice in an old fashioned glass, which predated the cocktail.

## Gin Bramble

The Bramble cocktail features gin, crème de mûre (blackberry liqueur), lemon juice and sugar syrup. It was created in London in 1984 by Dick Bradsell, a bartender at Fred's Club in Soho. Bradsell was inspired by memories of blackberry picking on the Isle of Wight as a child, and named the cocktail the 'Bramble' after the common name for blackberry bushes. Popular variations include using lime juice instead of lemon, or crème de cassis instead of crème de mûre.

# GIN

## Hedgerow Rhubarb and Raspberry

Slow-motion distillers were keen to champion rhubarb; a much-celebrated local product. Sourced from the Yorkshire Rhubarb Triangle, they experimented to see what the crimson and green stems, with a few raspberries, were like blended with Hedgerow Gin. They found they rather enjoyed the results – and so do we! Unlike a lot of rhubarb gins there are no added sugars, this is bone-dry. A slightly sweeter tonic then brings the gently fruity elements to the fore.

Juniper, coriander, angelica, orris, & bay, with six botanicals foraged from the farm and local hedgerows: crab apple, rosehip, elderflower, nettle leaf, & wildflower meadow hay. Stones from the spent fruit from sloe gin. Fresh Yorkshire “Rhubarb Triangle” rhubarb & raspberries.

## Hedgerow Blackberry and Apple

Following the mantra of ‘what grows together, goes together’, Slowmotion distillery experimented with these two hedgerow staples; blackberries, the jewel-like, mellow, juicy fruit, and the sweet & sour green apple, blending it with Hedgerow Gin. Again, with no sugar added, this dry but fruity gin is a delight on any day and celebrates that perfect autumn fruit combination.

Juniper, coriander, angelica, orris, & bay, with six botanicals foraged from the farm and local hedgerows: crab apple, rosehip, elderflower, nettle leaf, & wildflower meadow hay. Stones from the spent fruit from sloe gin.

## York Gin - London dry

Nine botanicals used by English gin makers for over 300 years come together to form a complex and satisfying classic. York Gin London Dry is all about the perfect balancing of flavours - a smooth, rounded, go-to gin that defies fashions and fads. Vapour infused in a beautiful traditional copper still, to ensure absolute consistency of taste. Our House Gin here at Plonkers.

## York Gin - Roman Fruits

A juniper-led, full-strength (42.5%) dry gin with no added sugar, infused with fruits and flowers associated with ancient Rome - including strawberries, raspberries, blackberries, apples, and hibiscus. The Yorkshire-made fruit infusion sits in their gold award-winning London Dry gin for over two weeks to develop a rich red imperial hue, and a complex flavour.

## York Gin - Mediterranean lemon

The distillers usually use just 120g of lemon peel when making a batch of their London Dry gin. York Gin Mediterranean Lemon uses 5kg! The recipe uses six of the original nine London Dry botanicals - the earthier and spicier ingredients (cinnamon, grains of paradise and cardamon) are taken out.

Master Distiller Harry Cooke says ‘The botanical baskets in the still are literally overflowing with lemon peel to give the gin a real citrus kick.’ With the 4,000% increase of lemon peel, the balance of the gin is much lighter with a really fruity and citrusy kick. Harry said: ‘Lemon is a really popular gin botanical - so we’ve gone to town with this one. As we developed the gin, it became clear that we really wanted to showcase the incredible flavour profile of lemon, so gradually we removed some of the other botanicals that didn’t quite fit. We’re delighted with the end result. It really is summer in a glass!’.

After fifty five experiments by Martin & Claire, the final recipe was chosen to give a wee taste of Caithness, and the very first batch was distilled on the 17th August 2014.

## Bathtub Gin

This award-winning Bathtub Gin takes a while to perfect, but it's worth it. First, copper pot-distilled gin is made with juniper, coriander and other fragrant botanicals- but they don't stop there. Instead, they take a portion of this gin and painstakingly infuse it with a further six fresh botanicals - a process which takes a whole week to do...(which might seem like a lot of effort, but as they say, you get out what you put in- and if we want a delicious gin then it needs to be made deliciously!). This infusion process allows those fresh botanical flavours - too delicate to survive traditional distillation - to shine through, and Bathtub Gin is left with its unique flavour and distinctive hue.

---

## Sipsmith

Sipsmith London Dry Gin. Gin made the way it used to be.

In 2009, Sipsmith set up London's first copper distillery for 189 years, crafting their award-winning gin by hand in small batches - the way it used to be. Their mission was simple: to bring a London Dry Gin of truly uncompromising quality and character, back to the city where gin first earned its name. With a nod to traditional hand crafted production, their gin combines traditional copper pot distillation with a recipe that wouldn't look unfamiliar to an eighteenth century Master Distiller. The result is the sensationally sippable Sipsmith London Dry Gin - a gin that's bold, complex and aromatic - smooth enough for a Martini, yet rich and balanced, perfect for a G&T.

---

## Portobello Road

On the front of the palate, Portobello Road Gin has a generous slug of juniper. The mid-palate has a sustained, fresh citrus character from the use of lemon, bitter orange and coriander, which then develops into a sweet peppery finish, achieved by the use of liquorice and nutmeg.

---

## Monkey 47

Admittedly, it seems somewhat eccentric that a recipe of gin has the power to unite great British traditions, the spices of India, and the rich landscape of the Black Forest. And yet it is precisely this eccentricity that defines the enigmatic and venturesome character of Montgomery Collins, from whom this Schwarzwald Gin originates.

---

## Seedlip 0%

A sophisticated, bright, citrus blend of Mediterranean Orange, Lemon Peel, Lemongrass and Ginger with a dry finish.

## Maker's Mark

Kentucky straight bourbon handmade whisky. Smooth and subtle, Maker's Mark is bourbon with a distinguished history. Created by Bill Samuels Sr, it took six years of trial and error to perfect the recipe - a corn, barley and wheat combination, that makes this whisky so special. The result is a lighter tasting, premium bourbon whisky with caramel and vanilla notes that's perfect for mixing and delicious over ice. Maker's Mark is matured in seasoned American oak barrels that are charred on the inside, before being matured for three Kentucky summers. Every barrel of Maker's Mark is still hand-rotated throughout this process and each bottle is hand dipped in wax to create the distinctive Maker's Mark seal.

## Jim Beam

Jim Beam Kentucky Straight Bourbon Whiskey. 220 years of experience goes into every bottle. Elegant. Smooth. Refined. That's what 4 years of aging in new charred oak barrels does to this bourbon. Every drop is worth the effort, sticking to their great-great-grandfather's recipe. Jim Beam Kentucky Straight Bourbon Whiskey is medium-bodied with mellow hints of caramel and vanilla with an oaky vanilla and spicy backdrop.

## Monkey Shoulder

If you're looking for a whisky with a bit of personality, then Monkey Shoulder is the one for you. This unique blend gets its name from the Scottish slang for a muscular strain suffered by malt men during the days when whisky was still made by hand. The three main single malt whiskies in Monkey Shoulder are Glenfiddich, Balvenie and Kininvie - all from Speyside, the spiritual home of whisky. This gives Monkey Shoulder its distinctive fruity and rich flavour profile. Monkey Shoulder is a smooth, creamy, supple and very malty Scotch which works superbly well neat, over ice, or in whisky cocktails (where it really excels).

## Jamesons

Jamesons Irish whiskey is a triple-distilled blended Irish whiskey, as versatile as it is smooth. Whiskey like Jamesons isn't just born smooth and balanced. First, they take the best of pot still and fine grain whiskeys, then triple distil them. Not because they have to, because they want to - this gives Jameson its signature smoothness. This tradition began in 1780 with John Jameson, and we continue his legacy to this day. Finally, we age our whiskey in oak casks for a minimum of 4 years. The result? A unique whiskey with a perfect balance of spicy, nutty and vanilla notes with hints of sweet sherry.

## Glenlivet

The Glenlivet 12 year old is a single malt, double matured Scotch whisky. From the Speyside region of Scotland, it is first matured in traditional, then American oak casks. Its delicious flavour is delicately balanced with strong pineapple and vanilla notes.

Founded by George Smith, The Glenlivet has been crafted in the remote Livet Valley in the heart of Scotland's Speyside region since 1824. He founded the first legal distillery in the parish of Glenlivet. At the start of the 20th century, The Glenlivet became the favourite whisky for enthusiasts throughout the British Empire. Following the end of Prohibition in the United States, its reputation grew in America, quickly becoming renowned worldwide as the original Speyside single malt, a position it continues to enjoy today.
